

Stakeholder Engagement Policy

Al Sraiya Holding views stakeholder relationships as an essential part of our strategic growth and community integration. Our Stakeholder Engagement Policy formalizes how we identify, communicate with, and respond to the needs and expectations of various stakeholders — including clients, government authorities, suppliers, employees, investors, regulators, and local communities.

We engage our stakeholders through open dialogue, ongoing consultation, and mutual respect, in full alignment with Qatar’s regulatory environment and business culture. Feedback is valued as a tool for continuous improvement, helping us tailor services, improve policies, and maintain our reputation as a trusted and responsible Qatari business group.

This policy ensures that engagement is meaningful, timely, and transparent, and reflects our commitment to inclusive and participatory corporate growth.
